NECESSITY, FUNCTION, AND CONFORMITY: KRS Chapter 224 requires the cabinet to adopt administrative regulations for the management, processing, and disposal of special wastes. KRS 224.40-305 requires persons who establish, construct, operate, maintain or permit the use of a waste site or facility to obtain a permit. This chapter establishes the permitting standards for special waste sites or facilities, and the operating standards applicable to all special waste sites or facilities. This administrative regulation establishes the procedures for obtaining a permit for a special waste site or facility.

Section 1. The Objective and Requirements of the Application for a Special Waste Formal Permit. All applicants for a special waste formal permit shall submit an application, on the designated application form, that contains all of the information specified in this administrative regulation. The applicant shall submit the application on a form approved by the cabinet and signed in accordance with Section 10 of this administrative regulation. Engineering drawings, specifications and studies shall be certified by a professional engineer registered in Kentucky. The contents of the application shall be accurate and complete before the cabinet makes a preliminary determination to issue a special waste formal permit.

Section 2. Scope of the Permit Requirements. (1) Except as otherwise provided in this section, any person managing special waste shall maintain a special waste site or facility permit as specified in Section 2 of 401 KAR 45:020.

(2) Specific exclusions.

(a) The disposal of mining overburden, coal mining wastes, refuse, and coal mining by-products returned to the mine site of generation, including any nonhazardous waste generated directly as a result of the mining operation, shall not require a special waste site or facility permit. Owners or operators disposing of the materials in this subsection shall obtain and be regulated by the appropriate permit issued pursuant to KRS Chapter 350.

(b) Persons managing special waste during emergency situations such as:

1. A spill of a special waste;
2. An imminent and substantial threat of a spill of special waste; or

(a) Owners and operators of sites or facilities with permits under other programs for certain aspects of the facility operation shall also obtain the required special waste site or facility permit.

(b) Any person who initiates or continues special waste containment or disposal activities after emergency situations are taken shall be subject to all applicable requirements of this chapter for those activities.

(4) Permits for less than an entire facility. The cabinet may issue or deny a permit for one (1) or more units at a facility without simultaneously issuing or denying a permit to all of the units at the facility. A permit-by-rule for any unit for which a permit has not been issued or denied shall not be affected by the issuance or denial of a permit to any other unit at the facility.

Section 3. Considerations of State and Federal Law. Permits shall be issued in a manner and shall contain conditions consistent with requirements of applicable state and federal laws. These

laws include but are not limited to:

- (1) 16 USC 661 et seq. (the Fish and Wildlife Coordination Act of 1958, as amended);
- (2) 16 USC 1273 et seq. (the National Wild and Scenic Rivers System);
- (3) 16 USC 1531 et seq. (the Endangered Species Act of 1983, as amended) and 50 CFR Part 402;

Section 4. Limitations of a Permit. (1) A permit may be modified or revoked during its term for cause as set forth in 401 KAR 45:040 and in 401 KAR Chapter 40.

(2) The issuance of a permit shall not convey any property rights or any exclusive privilege.

(3) The issuance of a permit shall not authorize any injury to persons or property or invasion of other private property rights, or any infringement of state or local laws or administrative regulations.

Section 5. Prohibition of Use of Unpermitted Facilities. No person shall deliver, or cause to be delivered, special waste to a site or facility unless the owner or operator has:

- (1) Submitted a notice to the cabinet in accordance with Section 4(1) of 401 KAR 45:020 as an existing waste site or facility in operation on or before June 24, 1992;
- (2) Qualified for a permit-by-rule in accordance with 401 KAR 45:060;

(2) An applicant for a special waste formal permit shall submit to the cabinet an application that contains the information specified in Section 8 of this administrative regulation.

(3) The site shall be designed in accordance with the applicable requirements of this chapter.

(4) If the cabinet determines during the review of the application that the proposed site cannot meet the requirements of this chapter, the cabinet shall deny the permit.

(5) The cabinet shall make a preliminary determination to issue or deny an application for a special waste formal permit within 180 calendar days from initial receipt of the application.

(6) If the application is incomplete, the cabinet shall notify the applicant in writing of the deficiencies. Failure to submit any required information noted by the cabinet within ninety (90) calendar days
